

REMARKS

The Amendment.

The specification has been amended to correct a number of grammatical errors. Also Table 3 has been amended to correct a typographical error for the Relative Percent Survival for Group B. This is a calculated value using the formula for RPS on page 6: $RPS = (1 - 4.67/36.67) \times 100 = 87.3$.

These errors were first discovered when prosecution of the case was transferred to the undersigned after Notice of Allowance and during the preparation of a Divisional application. Corresponding changes are being made to the Divisional application, and it is desired that the above amendments be entered in the present case for the sake of clarity and consistency. In that no new matter is being introduced, no issues of patentability are being raised, and the burden on the Examiner is expected to be minimal, entry of these amendments is solicited.

Respectfully submitted,

Curtis P. Ribando, Agent of Record
